Learning Assessments

A learning assessment is the first step towards unlocking your child's full potential! A comprehensive assessment can help to:

- Identify your child's learning strengths and weaknesses for the classroom
- Develop personalised learning strategies for your child
- Strengthen your child's reading, writing, and math skills
- Enhance your child's memory, attention, and concentration

UNLOCK
YOUR CHILD'S
POTENTIAL.

SOCIAL SOCCER GROUP

The Health Hub is proud to introduce a new sports club for children interested in soccer and wanting to have fun. It is aimed for children who want to improve their social skills, ability to work in teams, focus, and follow instructions.

What Are The Benefits?

- Inclusive and safe environment
- Skills development through exciting games and drills
- Improvement in gross motor skills and coordination
- Develop friendships and social skills
- Being part of and working within a team
- No previous soccer experience needed
- Boys and girls both welcome

Soccer Coach: Jed (Occupational Therapist)

Groups will be run by Jed who is an Occupational therapist at The Health Hub. He is a qualified children's soccer coach and has trained groups all the way from under 5's to adult mens' soccer. Jed is very passionate about the sport and believes all children should have a chance at sport no matter their skill level.
